

Does your partner...

disrespect you in public or in private?

get angry if you spend time with others?

demand you share social media passwords, texts, and phone messages?

prevent you from working, sleeping, studying, or taking care of yourself?

take your money and not pay you back?

insist this is what relationships are like?

claim your friends or family are trying to ruin your relationship?

blame you for problems in your relationship?

pressure you to do sexual things that make you uncomfortable?

force you to drink, use drugs, or do things that get you into trouble?

destroy your belongings or property around you?

undermine your parenting or threaten to take away your kids?

provoke you and blame you for your reaction?

threaten to share personal information, spread rumors or hurt oneself or both of you?

**This is abuse.
Call us, we're here for you.**
